PROFESSIONAL SUMMARY

Management Information Systems student at WVU with hands-on experience in network infrastructure, hardware repair, database design, and software development. Seeking a technology internship or entry-level role to apply technical skills in a professional environment.

EDUCATION

West Virginia UniversityMay 2027

Bachelor of Science in Business Administration | Morgantown, WV

Major: Management Information Systems | Minor: Cybersecurity | GPA: 3.5

WORK EXPERIENCE

Tech InternAugust 2024 – Present

Martich Tech Solutions | Weirton, WV

- Installed and configured network infrastructure (routers, LAN/WAN, security systems) for 15+ business clients, ensuring full system functionality
- Reduced client downtime by ~30% through efficient troubleshooting and system validation before deployment
- Diagnosed and repaired 25+ custom PCs, improving system performance and extending hardware lifespan
- Deployed and tested 10+ POS systems, completing installations with minimal operational disruption
- Delivered drone media content for 10+ local businesses, increasing client marketing visibility
- Resolved 50+ technical support issues, maintaining high client satisfaction and repeat business

LandscaperApril 2023 – August 2025

Warrick's Lawn Care | Weirton, WV

- Managed 50+ weekly client accounts, maintaining consistent service delivery and scheduling efficiency
- Improved route efficiency by ~20% through optimized scheduling and task prioritization
- Maintained high client retention rate (90%+) through strong relationship management
- Led daily coordination for 2-4 team members, ensuring timely project completion
- Completed 100+ seasonal projects (landscaping, maintenance, property care)

TECHNICAL PROJECTS

Relational Database Design (SQL)August 2025 – Present

- Designed normalized relational database schema with 10+ entities and relationships
- Built and validated 20+ MySQL tables, ensuring referential integrity and data consistency
- Data integrity enforcement (PK/FK constraints)
- Wrote 30+ complex SQL queries (joins, aggregations, filtering) for data analysis and reporting

C# DevelopmentAugust 2025 – Present

- Developed 5+ C# applications using object-oriented programming principles
- Identified and resolved 50+ bugs/issues through systematic debugging in Visual Studio
- Managed version control across multiple repositories using Git/GitHub

Application Development Project (In Progress)January 2026 – Present

- Collaborating on a 4-5 person team to build a full-stack application with REST API integration
- Developed 10+ modular UI components supporting scalable front-end architecture
- Tested and validated API endpoints, improving application stability and performance
- Participated in weekly sprint cycles with iterative debugging and feature deployment

SKILLS & CERTIFICATIONS

- Languages:** Python, C#, SQL
- Tools & Platforms:** MySQL, GitHub, Visual Studio, VS Code, Wireshark, Cisco Packet Tracer, Lucidchart
- Concepts:** Database Design, Network Security, API Integration, Object-Oriented Programming, Debugging & Troubleshooting, Version Control
- Certifications:** CompTIA Network+ (Expected August 2026)
