EDUCATION

West Virginia University | Morgantown, WV
Bachelor of Science in Business Administration
Major: **Management Information Systems**
Minor: **Cybersecurity**

May 2027
GPA: 3.5

Relevant Courses: Database Design, Network Security, Systems Analysis

TECHNICAL SKILLS

Languages: Python, C#, SQL

Tools & Platforms: MySQL, GitHub, Visual Studio, VS Code, Wireshark, Cisco Packet Tracer, Lucidchart

Concepts: Database Design, Network Security, API Integration, Object-Oriented Programming, Debugging & Troubleshooting, Version Control

PROFESSIONAL EXPERIENCE

Tech Intern

August 2024 – Present

Martich Tech Solutions | Weirton, WV

- Installed and configured network infrastructure (routers, LAN/WAN, security systems) for 15+ business clients, ensuring full system functionality
- Reduced client downtime by ~30% through efficient troubleshooting and system validation before deployment
- Diagnosed and repaired 25+ custom PCs, improving system performance and extending hardware lifespan
- Deployed and tested 10+ POS systems, completing installations with minimal operational disruption
- Resolved 50+ technical support issues, maintaining high client satisfaction and repeat business

PERSONAL AND COURSE PROJECTS

Relational Database Design (SQL)

August 2025 – December 2025

- Designed normalized relational database schema with 10+ entities and relationships
- Built and validated 20+ MySQL tables with PK/FK constraints, ensuring referential integrity and data consistency
- Wrote 100+ complex SQL queries (joins, aggregations, filtering) for data analysis and reporting

C# Development

August 2025 – December 2025

- Developed 5+ C# applications using object-oriented programming principles
- Identified and resolved 50+ bugs/issues through systematic debugging in Visual Studio
- Managed version control across multiple repositories using Git/GitHub

Application Development Project

January 2026 – May 2026

- Collaborating on a 4–5 person team to build a full-stack application with REST API integration
- Developed 10+ modular UI components supporting scalable front-end architecture
- Tested and validated API endpoints, improving application stability and performance
- Participated in weekly sprint cycles with iterative debugging and feature deployment

WORK EXPERIENCE

Landscaper

April 2023 – August 2025

Warrick's Lawn Care | Weirton, WV

- Managed 50+ weekly client accounts, maintaining consistent service delivery and scheduling efficiency
- Improved route efficiency by ~20% through optimized scheduling and task prioritization
- Led daily coordination for 2–4 team members, ensuring timely project completion
